

LabCorp's Occupational Testing Services Commonly Ordered Tests

Test Name	Test #	Specimen Requirement	Test Description
<p>Drug Screen (HHS/DOT), Urine (Five Drugs) automatic reflex to GC/MS (no separate charge for confirmation)</p> <p>Automatic reflex to GC/MS (separate charge for confirmation)</p>	<p>794800</p> <p>707000</p>	<p>Request Form Federal chain-of-custody</p> <p>Specimen Type Urine (random)</p> <p>Specimen Volume 50 mL</p> <p>Specimen Container Plastic urine container</p> <p>Specimen Storage Room temperature (Refrigerate or freeze for long-term storage.)</p> <p>Methodology Immunoassay with gas chromatography/mass spectrometry (GC/MS)</p>	<p>Five Drugs</p> <p>Amphetamines</p> <p>Cannabinoids (THC)</p> <p>Cocaine</p> <p>Opiates</p> <p>Phencyclidine</p> <p>Creatinine, Reflexes to specific gravity if <20 pH</p>
<p>Drug Screen (DOT Equivalent), Urine (Five Drugs) automatic reflex to GC/MS (no separate charge for confirmation)</p> <p>Automatic reflex to GC/MS (separate charge for confirmation)</p> <p>Plus MDMA/Ecstasy, automatic reflex to GC/MS (separate charge for confirmation)</p>	<p>789112</p> <p>737492</p> <p>737493</p>	<p>Request Form Chain-of-custody (can not use federal / DOT custody and control form)</p> <p>Specimen Type Urine (random)</p> <p>Specimen Volume 50 mL</p> <p>Specimen Container Plastic urine container</p> <p>Specimen Storage Room temperature (Refrigerate or freeze for long-term storage.)</p> <p>Methodology Immunoassay with gas chromatography/mass spectrometry (GC/MS)</p>	<p>Five Drugs</p> <p>Amphetamines</p> <p>Cannabinoids (THC)</p> <p>Cocaine</p> <p>Opiates</p> <p>Phencyclidine</p> <p>Creatinine, Reflexes to specific gravity if <20 pH</p> <p>Ecstasy (MDMA)</p>
<p>Drug Screen, Urine (Seven Drugs) automatic reflex to GC/MS (no separate charge for confirmation)</p> <p>Automatic reflex to GC/MS (separate charge for confirmation)</p> <p>Plus Ecstasy/MDMA, automatic reflex to GC/MS (no separate charge for confirmation)</p>	<p>789113</p> <p>737495</p> <p>789114</p>	<p>Request Form Chain-of-custody (can not use federal / DOT custody and control form)</p> <p>Specimen Type Urine (random)</p> <p>Specimen Volume 50 mL</p> <p>Specimen Container Plastic urine container</p> <p>Specimen Storage Room temperature (Refrigerate or freeze for long-term storage.)</p> <p>Methodology Immunoassay with gas chromatography/mass spectrometry (GC/MS)</p>	<p>Seven Drugs</p> <p>Amphetamines</p> <p>Barbiturates</p> <p>Benzodiazepines</p> <p>Cannabinoids (THC)</p> <p>Cocaine</p> <p>Opiates</p> <p>Phencyclidine</p> <p>Ecstasy (MDMA)</p>
<p>Drug Screen, Urine (Nine Drugs) automatic reflex to GC/MS (no separate charge on confirmation)</p> <p>Plus Ecstasy/MDMA, automatic reflex to GC/MS (no separate charge for confirmation)</p>	<p>789064</p> <p>789116</p>	<p>Request Form Chain-of-custody (can not use federal / DOT custody and control form)</p> <p>Specimen Type Urine (random)</p> <p>Specimen Volume 50 mL</p> <p>Specimen Container Plastic urine container</p> <p>Specimen Storage Room temperature (Refrigerate or freeze for long-term storage.)</p> <p>Methodology Immunoassay with gas chromatography/mass spectrometry (GC/MS)</p>	<p>Nine Drugs</p> <p>Amphetamines</p> <p>Barbiturates</p> <p>Benzodiazepines</p> <p>Cannabinoids (THC)</p> <p>Cocaine</p> <p>Opiates</p> <p>Phencyclidine</p> <p>Methadone</p> <p>Propoxyphene</p> <p>Ecstasy (MDMA)</p>

Additional profiles are available within allowable cut-off levels upon request. For additional information about LabCorp's occupational testing services, contact us at 800-833-3984.

Medical Professionals Testing Program

Request Form chain-of-custody (can not use a Federal/DOT custody and control form)

Specimen Urine (random)

Volume 50 mL

Container Plastic urine container

Storage Room temperature (Refrigerate or freeze for long-term storage.)

Methodology Codes

C - Colorimetric (Visual or Spectrophotometric)

E - Enzymatic

GC - Gas Chromatography

GC/MS - Gas Chromatography-Mass Spectrometry

IA - Immunoassay (ELISA, FPIA, Microparticle, RIA, etc)

M - Manual Test (visual reading)

TLC - Thin-layer Chromatography

Drug Profile 764883, Screening and Confirmation Methodology

Adulteration (Dilution)

Creatinine, if <20 mg/dL, then reflex to: , C

Specific Gravity, pH, C, M

Amphetamines, IA, GC/MS

Amphetamine

Methamphetamine

Barbiturates, IA, GC/MS

Amobarbital

Butalbital

Pentobarbital

Phenobarbital

Secobarbital

Benzodiazepines, IA, GC/MS

Alprazolam

Clonazepam

Flurazepam

Lorazepam

Nordiazepam

Oxazepam

Temazepam

Triazolam

Cannabinoids (THC Metabolite), IA, GC/MS

Cocaine (as Benzoyllecgonine), IA, GC/MS

Ethanol (Alcohol), E, GC

Meperidine, IA, GC/MS

Methadone, IA, GC/MS

Opiates, IA, GC/MS

Codeine, 300 ng/mL

Hydrocodone

Hydromorphone

Morphine

Oxycodone, IA, GC/MS

Phencyclidine, IA, GC/MS

Propoxyphene, IA, GC/MS

Tramadol, IA, GC/MS

Drug Profile 764884, Screening and Confirmation Methodology

Adulteration (Dilution)

Creatinine, if <20 mg/dL, then reflex to: , C

Specific Gravity, pH), C, M

Amphetamines, IA, GC/MS

Amphetamine

Methamphetamine

Barbiturates, IA, GC/MS

Amobarbital

Butalbital

Pentobarbital

Phenobarbital

Secobarbital

Benzodiazepines, IA, GC/MS

Alprazolam

Clonazepam

Flurazepam

Lorazepam

Nordiazepam

Oxazepam

Temazepam

Triazolam

Cannabinoids (THC Metabolite), IA, GC/MS

Cocaine (as Benzoyllecgonine), IA, GC/MS

Ethanol (Alcohol), E, GC

Meperidine, IA, GC/MS

Methadone, IA, GC/MS

Opiates, IA, GC/MS

Codeine

Hydrocodone

Hydromorphone

Morphine

Oxycodone, IA, GC/MS

Phencyclidine, IA, GC/MS

Propoxyphene, IA, GC/MS

Additional Tests (contact occupational testing for test numbers)

Amitriptyline, TLC,GC/MS

Buprenorphine, TLC, GC/MS

Butorphanol, TLC, GC/MS

Chlorpheniramine, TLC,GC/MS

Dextromethorphan, TLC, GC/MS

Dihydrocodeine, TLC, GC/MS

Diphenhydramine, TLC,GC/MS

Fentanyl, IA, GC/MS

Ketamine, TLC,GC/MS

LSD, IA, GC/MS

Mephobarbital, TLC, GC/MS

Meprobamate, LOD, TLC,GC/MS

Nalbuphine, TLC, GC/MS

Naltrexone, LOD, TLC, GC/MS

Oxymorphone, 764373, TLC, GC/MS

Pentazocine, TLC, GC/MS

Phenmetrazine, TLC,GC/MS

Phenothiazines, Separate request

Sympathomimetic amines, TLC, GC/MS

Chlorpheniramine

Diethylpropion

Ephedrine/Pseudoephedrine

Ethylamphetamine

Methylephedrine

Phentermine

Thiopental, TLC, GC/MS

Tramadol, IA, GC/MS

Test information is included here for quick reference. More detailed descriptions are published in the *Directory of Services and Interpretive Guide (DOS)*, either in paper or electronic form. For the most recent edition of the paper form, contact your service representative; to consult the electronic version, visit www.LabCorp.com.
